

About Us

Trial Match aims to help patients and clinical trials by connecting volunteer patients to the cure they need in a shorter time. At the same time, clinical trial. Sponsors may have difficulty finding the right pool for examining the medicine or vaccine tests. By using our data-driven AI-powered system, the clinical trials will be more accessible, more efficient and shorter.

Our Services

- counterbalancing the mentioned issues during clinical trial phases
- Data collection at secure storage on trial site app
- connecting doctors and patients
- Real-time analytics fed back to trial match
- Perform interim and final trial analyses
